

AI IN ESG INVESTING 2022

ORGANIZED BY

ARE YOU ESG-ORIENTED? JOIN THE COMPETITION BUSINESS PROJECT AI IN ESG INVESTING 2022

www.esgcompetition.com

Registration: <https://ai-esg-registration.webankieta.pl/>

Open till: April 12, 2022

Join our second edition of the AI in ESG Investing, build an ESG-based strategy and **win with your team EUR 4.000**. The best team will also receive a voucher to take a full examination path for the CFA Institute Certificate in ESG Investing recognized by leading investment firms.

To find out more about rules of the competition join our second must-attend introduction e-session with organizers. Full description and registration: <https://cfapoland.org/wydarzenia/377,introduction-e-session-ai-in-esg-investing-edition-2022.html>

Why should you join?

The AI in ESG Investing is the first competition in Europe, consisting of building ESG indicators based on financial, non-financial and alternative data, as well as proposing a long term ESG strategy for the selected company.

Being a part of this business project for students you will work on a competition task for a company from the oil&gas sector. **The financial prize is not the only asset. Winners will receive a voucher to take a full examination path of a unique and practical qualification – the CFA Institute Certificate in ESG Investing which costs USD 675 per candidate.**

More than a competition

The AI in ESG Investing is more than a competition. With our partner Refinitiv we will offer students market data access with relevant training on Refinitiv Workspace and ESG indicators. You may count on extra training by our oil&gas subject company and being matched by organizers with other business partners!

Why a participation in the AI in ESG Investing is must-have in your CV?

According to Reuters 2021 became the year of ESG Investing. Climate change, social justice or the current war Ukraine-Russia are pushing companies and regulators to make changes amid record inflows to funds focused on environmental, social and corporate governance (ESG) issues. **You might become a part of this megatrend and develop your skills and knowledge in the ESG area!**

How may I join?

1. First of all, review our official website: www.esgcompetition.com, check the agenda and official rules.
2. Invite your student friends (faculties: economics, finance and accounting, quantitative methods, management) and create a team that should consist of 2 to 4 people.
3. Register your team via this link: <https://ai-esg-registration.webankieta.pl/>
4. The organizer CFA Society Poland will confirm your registration.

Who we are?

CFA Society Poland belongs to one of the largest professional organizations in the financial environment — CFA Institute. It promotes the highest ethical, professional, and educational standards in the financial industry in Poland. The Quantitative Finance Professional Development Foundation creates a bridge between the academic community and the business environment in the area of quantitative finance and big data.
